

Outdoor Adventures

This activity is best suited for young people aged 11 and under.

Drawing with Nature

Have a look at the nature around you.

Can you see leaves and twigs? Can you see stones and flowers? Can you see any grass and mud? Is there anything else you can see?

Create a picture with the nature you can see around you.

Can you make a big happy face? You could use leaves for the hair and twigs for the smile.

Personality Pebbles

Collect some pebbles, stones or small rocks. The smoother the better.

If your pebbles are dirty you will need to wash and dry them. Ask an adult to help.

Using felt tip pens or paint you are going to give your pebbles some personality!

Think about who your pebble is. What is their name? How are they feeling? Where do they live? Draw or paint the character you have imagined onto your pebble.

Your pebbles could be human, animals, alien, robot or anything you decide, just use your imagination. Why not make some friends for your pebbles?

We would love to see your Outdoor Adventures. If you would like to share any pictures of you Outdoor Adventures or what you have created you use the #CreativeColliseum or send a email to LED@Coliseum.org.uk.
