Background Context and Core Values

The OPAC Youth Theatre festival is part of a 2-year programme of education in drama, theatre and performing arts in Oldham.

Oldham Coliseum Theatre and **Oldham Theatre Workshop** are working together to continue developing partnerships with schools and creating pathways into the local theatre education offer that supports the curriculum and enhances soft-skills development for young people.

The festival is a week of performances of the chosen piece and stimulus, performed or devised by secondary schools, as part of their extra-curricular programme. At the heart of this commission is the importance of children and young people's creative education and the need to connect with local, Greater Manchester artists, practitioners, students and teachers. On a micro-level we want to ensure every individual child across Oldham has an opportunity to experience the performing arts and participate on or offstage.

We know there is a need to make the pathways and long-term economic benefits of theatre, drama or performing more visible. Celebrated theatre more at school level will support the uptake of creative arts for future of the creative industries.

We encourage curiosity or requests for further clarity around the project, so please do not hesitate.

Best of luck!
